

So, you've learned you have a rather unique life story!

*We can relate.*

Maybe you've just learned about your story recently.

Maybe you've known your story for decades and you've kept it locked inside of you out of protection for your family, because of how others have responded to your experience, or maybe because you want to stay out of the abortion debate.

**We want you to know you're not alone.**

*The Abortion Survivors Network is a healing and advocacy organization for abortion survivors, founded and run by an abortion survivor.*

Although every survivor and every survivor's experience is unique, we have a lot in common. Common struggles, common concerns, common needs, and common strengths.

We provide peer support and healing support through one on one partnering of survivors with one another, monthly online meetings, a private online group and an annual retreat. We also have a specialized healing curriculum which survivors can access privately, while having individualized support.

We have opportunities for training in how to share your story, engage in advocacy work, and talk about the issue of abortion. But.....

**All of that is completely up to what YOU need and YOU would like assistance with.**

*We take survivors' confidentiality and privacy seriously. We don't share stories without permission and you don't have to share your story or participate in any programs in order to be supported.*

Find us online at: [www.abortionsurvivors.org](http://www.abortionsurvivors.org) to learn more about us, other survivors like you, and how to get in touch with us.

The Abortion Survivors Network is an affiliate of Pro-Love Ministries.
