

ABORTION SURVIVORS NETWORK

More than a "Choice"

Our Mission

To create a world where the incidence of failed abortions and the lives of survivors is openly discussed and accepted, abortion survivors are openly discussed and accepted, and survivors and their families are supported and healed.

We provide **HELP, HOPE, and HEALING**, by:

SUPPORT

Providing social and emotional support to survivors and their families through one on one healing, support groups and peer support, and healing retreats.

AWARENESS

Equipping our survivors with the tools to share their stories. Our programs empower them to break the silence of the untold realities of abortion. Our survivors are empowered to raise awareness in the public about the incidence of failed abortions and the effects that failed abortions have on individuals, families, and society.

ADVOCACY

We are survivors creating a community for survivors. We advocate for the unborn, giving a voice to all affected by abortion. We are a voice at the table for all abortion survivors.

**17,855 babies have survived an
abortion since 1973**

**YOU can help us find and
support these survivors.**
